

Mobile Shop Policy Review Survey Results

16 respondents total from 89 mobile shop licence holders

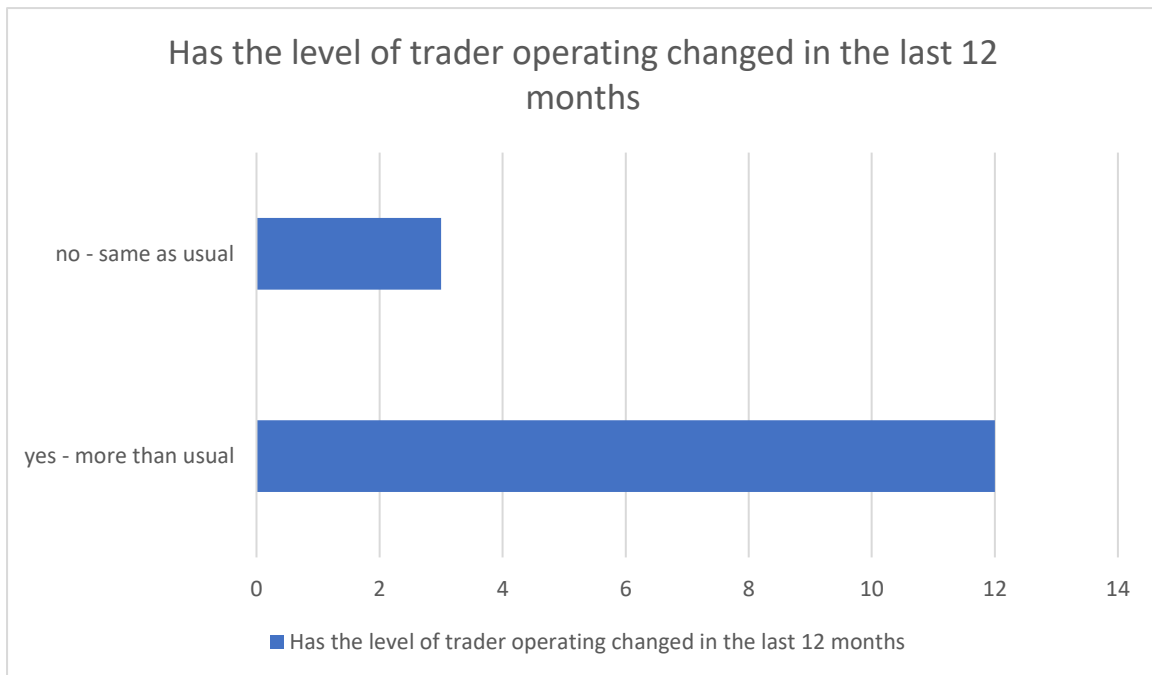

Question One: How long have you had a mobile shop licence?

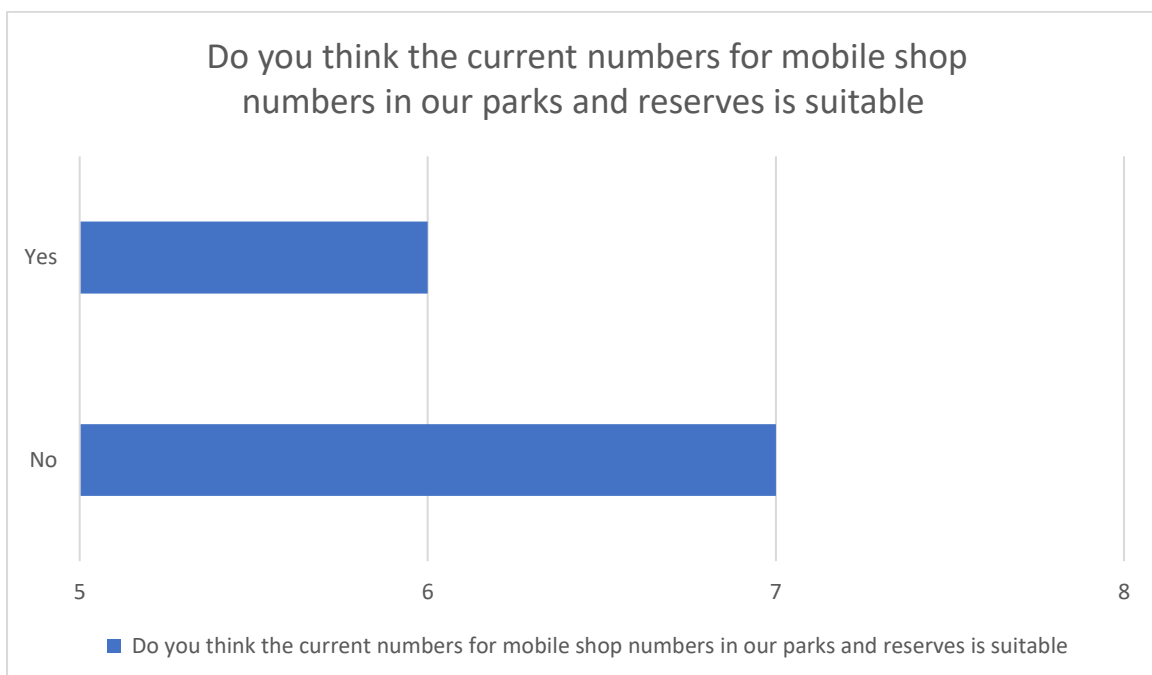

Question Two: Where do you currently trade? (multiple answers allowed)

Question 3: Do you think the level of traders operating has changed in the last 12 months?

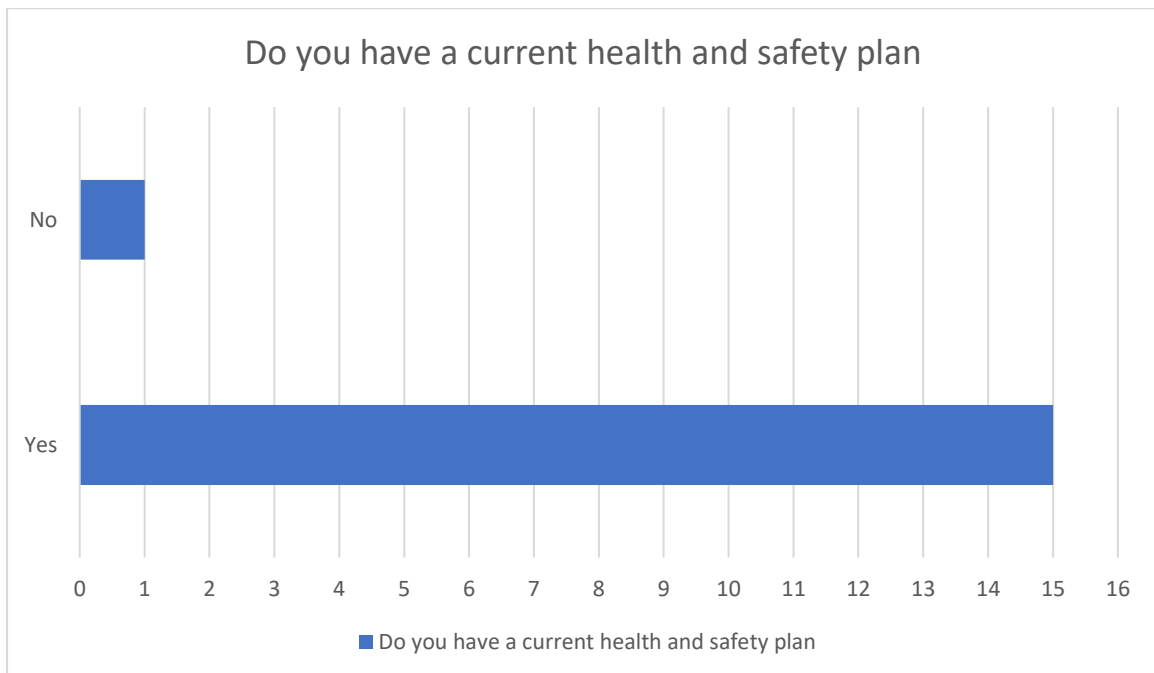

Question 4: Our parks and reserves have limits on the number of mobile shops that may operate. Do you think the current numbers for mobile shop numbers in our parks and reserves listed below is suitable?

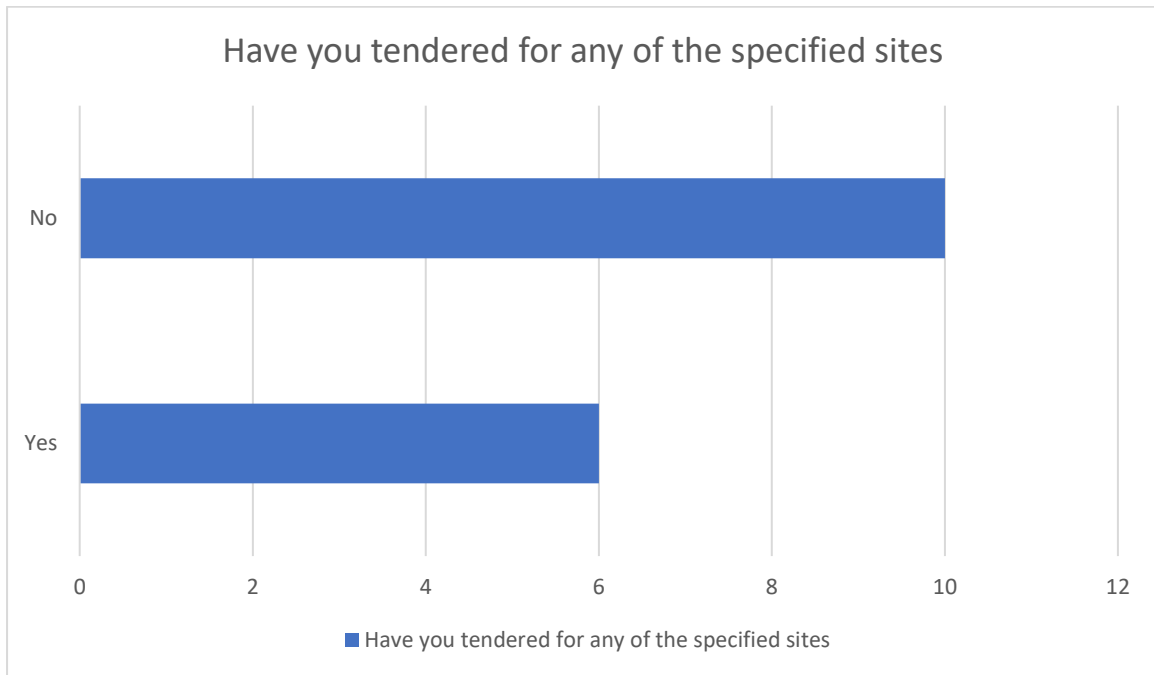

Question 5: Number of mobile shops in parks and reserves - If no (to question 4 above), let us know what numbers you'd like to see

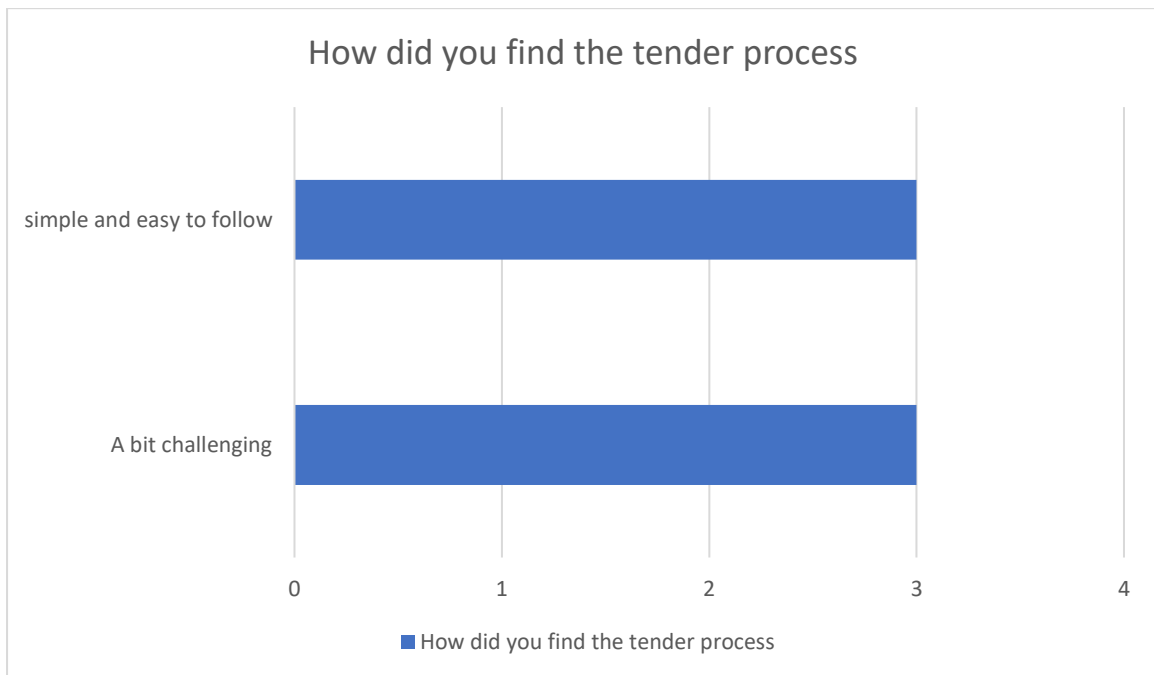

Question 6: Do you have a current health and safety plan?

Question 7: We are looking at ways to improve the tender process for licenced sites. Have you tendered for any of the specified sites such as Blake Park, Memorial Park?

Question 8: If yes how did you find the tender process?

Do you have any suggestions about how to improve this process?

- No (2 answers)
- I think the process is extremely long.
- Because we have tendered before we found the application easy enough to follow.
- I feel that if you have already got the tender and retender you shouldn't have to redo all the specks you ask for as you the council have them all on file. size etc (you only required update on health cert and current rego extra for mobile truck. and as long as ownership hasn't changed it should be more straight forward. The paper work is just getting to stressful everytime you tender.
- Specify better the financial side of tendering process- the actual price. Also, for Marine Parade site, there are 12 parking spots but in reality there can't fit more than 5 food carts. There are very interesting food traders but not enough opportunities-spaces.
- Email to notify when the tenders are available some of the food trailers need to be of a higher standard some are very rough with little or no refrigeration. There needs to be a health inspector checking at some events as the tents there have no refrigeration and no hot water to wash your hands.
