User fees and charges are used to assist the operation and maintenance of a variety of services provided to the community. User fee revenue reduces the rate revenue required to be collected from ratepayers.

Council wants to minimise rate increases wherever possible and has indicated that it will continue to review all user fees and charges on an ongoing basis.

Under section 12 of the Local Government Act 2002, reasonable costs incurred may be charged based on the hourly rate of staff involved.

**All fees are GST inclusive, unless otherwise stated.**

## Alcohol Licensing

The Sale and Supply of Alcohol Act 2012 sets licensing fees for on, off, and club licences. The default fees vary depending on the 'cost/risk rating' of each premises. The default fees consist of:

- an application fee, which licensees will have to pay when they apply for a new, renewed, or variation to a licence, and
- an annual fee, which must be paid by licensees each year.

A premises' cost/risk rating will be determined by a combination of factors including opening hours, type of premises, and whether they have had any enforcement issues. A framework is available for determining cost/risk rating. [Use the calculator](#) to work out how much you will pay for your alcohol licence. Fees are set as of 1 July 2020.

## Asset Protection Bond and Service Connection Fees

1. Asset protection bonds are deposits only.
2. Where Council incurs additional cost in administering the asset protection bond then additional fees will be charged. Examples of incurring additional cost include undertaking additional inspections over and above those stated below, arranging for sub-standard works or damaged assets/infrastructure to be brought up to the required standards, re-inspections of work etc.
3. Where additional fees are charged, the fees will be charged on a time and cost basis with a minimum fee of 1 hour plus disbursements and deducted from the bond amount prior to refund
4. For item 3 above if the value of the additional fees exceeds the value of the bond then Council will invoice the Bond Holder for the balance outstanding.

## Building Services

Fees for building services can be paid in person at our customer service centre, or online through internet banking, debit cards or credit cards. You'll need your invoice number and customer number as shown on your invoice.

Any functions or services that are provided but are not specifically detailed in this schedule will be charged at the relevant officer charge out rate. All charges by Council must be paid as soon as practicable. Applications that are not accepted at the time that they are submitted will incur administration costs.

Where this document refers to Residential 1, 2, 3 or Commercial 1, 2, 3 this is the complexity of work according to the National BCA Competency Assessment System Levels.

A deposit may be charged for applications where it is considered necessary.

## Development Contributions

Fees can be found in the Development Contributions Policy on [Council's website](#).

### Development Contribution Objections

If a person objects to Council's requirement that a development contribution be made, in accordance with section 199C of the Local Government Act, then Council may recover from the person its actual and reasonable costs in respect of the objection (section 150A of the Local Government Act).

- Costs relating to staff time will be charged at the rates specified for the relevant staff member as set out in the user fees and charges
- Other costs may include photocopying and printing, actual and administration costs incurred in holding and managing the objection, planning and specialist reports and actual costs incurred for external consultants and/or specialists
- Council may also recover costs incurred in respect of the selection and engagement of the development contributions commissioners

### Development Works

The Development Works Approval fee is to be paid at the time of application for Development Works Approval. The fee is a non-refundable deposit. The costs associated with reviewing the engineering plans, observation/testing and monitoring of the development works will be deducted from the deposit fee. Where the costs incurred exceed the deposit fee the consent holder will be invoiced for the outstanding balance.

Periodic observations will be carried out weekly during construction. A minimum monthly charge will apply for all active Development Works Approval applications.

## Planning

Deposit fees are not required for applications unless stated as fixed fees. Fixed fees are non-refundable and will be charged at lodgement of the relevant application. The remaining application types will be charged on a time and cost basis. The overall cost of the application will depend on the type and scope of the work you are proposing. Fees will be invoiced periodically based on actual cost (including any specialist reviews by internal staff based on the hourly rates specified etc.), external experts/specialists, commissioners or external consultants (processing).

To work out how much your application might cost, you may first need to talk to a professional and prepare your initial plans. Application fees include consent processing, engineering design acceptance, construction audits and clearances, and certification. Fees will be required to be paid before some certificates and decisions will be released as per Section 36AAB of the Resource Management Act 1991 (RMA) Tauranga City Council need not perform the action to which the below Section 36 charges relate until the charge has been paid to it in full. Bond and maintenance/defect liability clearance fees will be invoiced at the relevant time.

Under Section 36AA of the Resource Management Act 1991 (RMA) a default discount policy will apply where a resource consent application is not processed within the timeframe(s) set out in the RMA, and the responsibility for the delay rests with Council.

All fees apply to applications made for resource consent for a qualifying development in an approved special housing area.

No fees are payable for non-notified, restricted discretionary land use consent applications for protected trees made under Chapter 6 of the City Plan.

All fees, deposits and hourly rates are inclusive of GST.

### Tauranga City Plan

There is no hard copy updating service for the operative Tauranga City Plan.

All access to the Tauranga City Plan will be by electronic means through the Tauranga City Council website.

This is free of charge and will provide access to all updated City Plan and Plan Change information.

Hard copies may be inspected at the Council's customer service centre and at all public libraries.

Copying of the City Plan provisions can be undertaken upon request in the normal manner at the customer service centre.

#### Disbursements

Council disbursements (mileage, copying, postage, etc.) may also form part of the costs incurred and may also be invoiced to an applicant on an actual cost basis.

#### Asset Development Fees

An Asset Development Fee is charged where an application presents an effect on Council infrastructural assets or where it is proposed to vest assets in Council as part of the development. In this case, the application is also assessed by Council's Development Engineering team. The Asset Development Fee shall be charged on an actual time and cost basis.

#### Applications Lodged with the Environmental Protection Agency

Planning and specialist reports, charged at actual cost plus actual time and cost for administration. Expert evidence/advice charged at actual cost plus 10% administration fee. Legal fees charged at actual cost.

### Planning staff fees

The time taken to process an application (including any pre-application time, providing advice, additional queries from applicant etc.) and to undertake associated post-consent work and monitoring will be charged at the relevant scheduled hourly rate, plus the actual cost of any external specialists consultants/commissioners and disbursements. Time will be charged at the hourly rate applicable at the time the work was carried out. A minimum charge of 15 min will be applied as a starting point."
