- Key**
- 1 Swimming spot access is steep. Potential for contour of streambank or rock/concrete/gabion steps.
  - 2 Potential for picnic area.
  - 3 Potential dedicated public parking area.
  - 4 Pest trees along stream bank, willow and wattle.
  - 5 Grass worn path were people are walking along roadside and over pipeline and road.
  - 6 Potential for road side track from marae. Underbridge walk access has been suggested in engagement.
  - 7 Existing planted area (manuka). Needs infill planting to supress weeds.
  - 8 Potential for clearance of pest plants, improve walking from town, and swim access upstream
