1 OPENING KARAKIA

Cr Hēmi Rolleston opened the meeting with a karakia.

2 APOLOGIES

Nil

3 PUBLIC FORUM

Timestamp: 7 minutes

3.1 Bryce Cole - Birch Avenue Burnouts

Key Points

- Mr Cole, representing local businesses on Birch Avenue, presented to the committee about ongoing dangerous burnout activities on Birch Avenue.
- He noted that the dangerous activities have affected both council and private properties, and that local businesses were supportive of efforts to address the issue, with thanks given to Councillor Schuler for visiting the site and engaging with affected parties.
- Mr Cole suggested installing cameras with number plate recognition to assist police.
- Mr Cole played a video of surveillance footage for the Committee illustrating the issues.

In response to a question

- Mr Cole explained that while police have caught some offenders, the main challenge was their limited availability and the prevalence of unregistered, subpar vehicles used in these incidents.

Staff response

- Council staff clarified that while the issue was primarily a police matter, they were working to install cameras in the area to enable quicker police response, but progress was delayed due to a backlog with PowerCo for power connections, with implementation expected in a few months.

Timestamp: 14 minutes

3.2 Ms Heidi Hughes and Ms Emma Jones, Dr Jim Miller, Mr Joey McKenzie and Mr Joel Ngātuere - Mount Air Quality Report

Key Points – Ms Heidi Hughes and Ms Emma Jones

- Ms Hughes and Ms Jones explained the origins of Clear the Air Mount Maunganui, formed by concerned parents in response to severe air pollution affecting schools and sports fields, and described the evolution of the working party as a critical forum for collaboration among council, regional council, industry, and community representatives.
- Ms Hughes highlighted the importance of involving the community in the regional spatial plan, expressing concerns about insufficient early engagement and proposing actions to ensure robust consultation and lessons learned from past planning mistakes were integrated into future land use decisions.

Key Points – Dr Jim Miller

- Dr Jim Miller detailed the health risks associated with particulate pollution, noting improvements in monitoring since 2019, the designation of the area as a polluted air shed, and the importance of focusing on chronic exposure and annual averages, with ongoing impacts on respiratory and cardiovascular health.

Key Points – Mr Joey McKenzie

- Mr McKenzie described the value of the working party for Port of Tauranga and other industries, highlighting the Mount Maunganui Industrial Environmental Accord, which encourages industries to voluntarily commit to environmental improvements and collective accountability, resulting in increased awareness and investment in best practices.

Key Points – Mr Joel Ngatuere

- Mr Ngatuere emphasised the cumulative impacts of decades of planning decisions on Whareroa and the need for Tauranga City Council to learn from past mistakes, advocating for robust engagement in spatial planning and the development of a written plan to reduce cumulative pollution, as recommended by the Environment Court.
- Discussed regulatory changes, including Plan Change 13 and Policy 12, improvements in air quality monitoring, sealing of industrial yards to reduce dust, and the need for ongoing monitoring and adaptation of consent processes to address cumulative effects and reverse sensitivity.

In response to questions

- Speakers and Councillors discussed the absence of government and MP representation in the working party, noting intermittent involvement from NZTA and Ministry for Environment, and expressed disappointment at the lack of national-level engagement, with calls for council to advocate for stronger central government participation.

At 9:55am, Mayor Mahé Drysdale left the meeting.
